

Planning for the Perfect Vacation: 5 Tips for Saving Up!

Taking a vacation is one of life's greatest pleasures. Whether it's a weekend getaway or an extended tropical trip, there is something special about planning and experiencing a memorable trip. But, in order to make that dream vacation happen, you need to save money.

Here are 5 useful tips on how to save up for your next vacation!

#1. Setup a vacation savings account.

Savings accounts are great for setting aside cash for an upcoming vacation. And when you link one to a checking account at Reliabank, you can set up automatic transfers from your paycheck into a dedicated savings account to ensure that you stick to the budget that you set. Even if it's just \$10-\$20 per paycheck, these small transfers add up quickly and can make all the difference when it comes time to book your flight or hotel stay.

#2. Declutter and sell items you don't need.

Springtime is a great opportunity to declutter and purge. Purge your closets, and garages for items you don't need and sell them for some extra cash. Take pictures of sellable items and post them to Facebook marketplace or local rummage pages. Take the extra funds and put it into your vacation fund.

#3. Find ways to cut back on spending!

When creating your budget for saving for vacations, there are probably some areas where you could cut back on spending. Consider things like eating out less frequently, carpool instead of driving, or even canceling those subscriptions that you don't use anymore.

Find what works best for your lifestyle and start cutting back in order to save money each month.

#4. Make use of uChoose Rewards.

uChoose Rewards is a rewards program where you earn points for shopping, then redeem your points for gift cards, travel, and more. All you have to do is register your Reliabank personal debit card and start earning points - wherever you shop!

This could be a great way to get discounts on hotel, gift cards for restaurants and more on your vacation.

#5. Find deals and packages.

Sites like Groupon and LivingSocial offer great deals on everything from flights and hotel stays to activities and excursions. Additionally, taking advantage of airline miles programs can help cut down on the cost of airfare significantly.

Saving up for a dream vacation doesn't have to be difficult – with some careful planning and strategic budgeting, anyone can make their ideal trip come true! By following these simple tips – creating automatic savings transfers, selling items you don't need, looking out for deals & rewards, and cutting back on spending – anyone can start saving money towards their next vacation today!

So, what are you waiting for? Start planning now!
